Dear Prof. Talagrand,

Many thanks for your nice assistance and considerable effort for our article (indeed it is time-consuming even for the phase of inviting referees for such a poor-written manuscript like ours).

We are very grateful for your kind offering us with the opportunity to decide the next step for our manuscript ourselves. We'll definitely do our best to make the revised manuscript become perfect as much as possible.

Thank you again!

Sincerely yours,
Chongjian Liu
