Dear Dr. Stenke,

Thanks a lot for extending the deadline.

Unfortunately, the preprint of the paper presenting the aCCFV1.0A is still not available. In this respect, according to the discussions we had, we changed the citation to "submitted to":

Matthes, S., Dietmüller, S., Dahlmann, K., Frömming, C., Yamashita, H., Grewe, V., Yin, F., and Castino, F.: Algorithmic climate change functions (aCCFs) V1.0A: Consolidation of the approach and note for usage, submitted to GMDD, 2023.

Best regards,

Abolfazl Simorgh.
