

Authors' response to the Editor and Referees
on
egusphere-2023-122 "A wave-resolving modeling study of rip current variability,
rip hazard, and swimmer escape strategies on an embayed beach with irregular
rip channels"

Dear Prof. Mauricio Gonzalez and Referees,

We are really delighted that this study was accepted for publication, and we really appreciate the constructive comments raised by both reviewers. Thanks very much.

Kind Regards,

Huaiwei Yang and Ye Yuan, on behalf of the co-authors.
