

We appreciate your valuable time in reviewing this manuscript. The time has been corrected as shown in Figure 5.

**Editor**

1. *Thanks for addressing the reviewer's comments and clarifying the questions. Looking at Figure 5, I disagree that AlkOA concentration was increasing between 9 am-8 pm. The period with an obvious increase is 9 am-6 pm. However, there is a clear drop in the concentration at 6 pm; therefore, I'd like you to revise the description of this Figure in Lines 332-335 to accurately represent the data.*

Response: Thank you for pointing this out. The description of this Figure has been adjusted to the correct time.
