

Revised version of "The Mixed Layer Depth in the Ocean Model Intercomparison Project (OMIP): Impact of Resolving Mesoscale Eddies"

Message from editor:

Dear Authors,

as you can see both Reviewers recommend publication of your manuscript.

Checking the data availability section, I have noticed that the link for the data and notebooks seems to be broken:

"The data used to produce the figures and the corresponding python notebook are archived on Zenodo, doi:10.5281/zenodo.7656425"

Could you please double-check this DOI?

Thanks,

Riccardo

Dear Riccardo,

Best regards,

Anne Marie
