

Biopreparation
consist of
Azotobacter
chroococcum,
Azospirillum
brasilense, P, K,
marine algae
extracts.

Soil total porosity till 74%

Soil aeration porosity till 62%

Soil temperature 10-29°C

CO₂

0.55–11.07
 $\mu\text{mol m}^{-2} \text{s}^{-1}$.

Biopreparation
effect on CO₂
reduction -
29%
