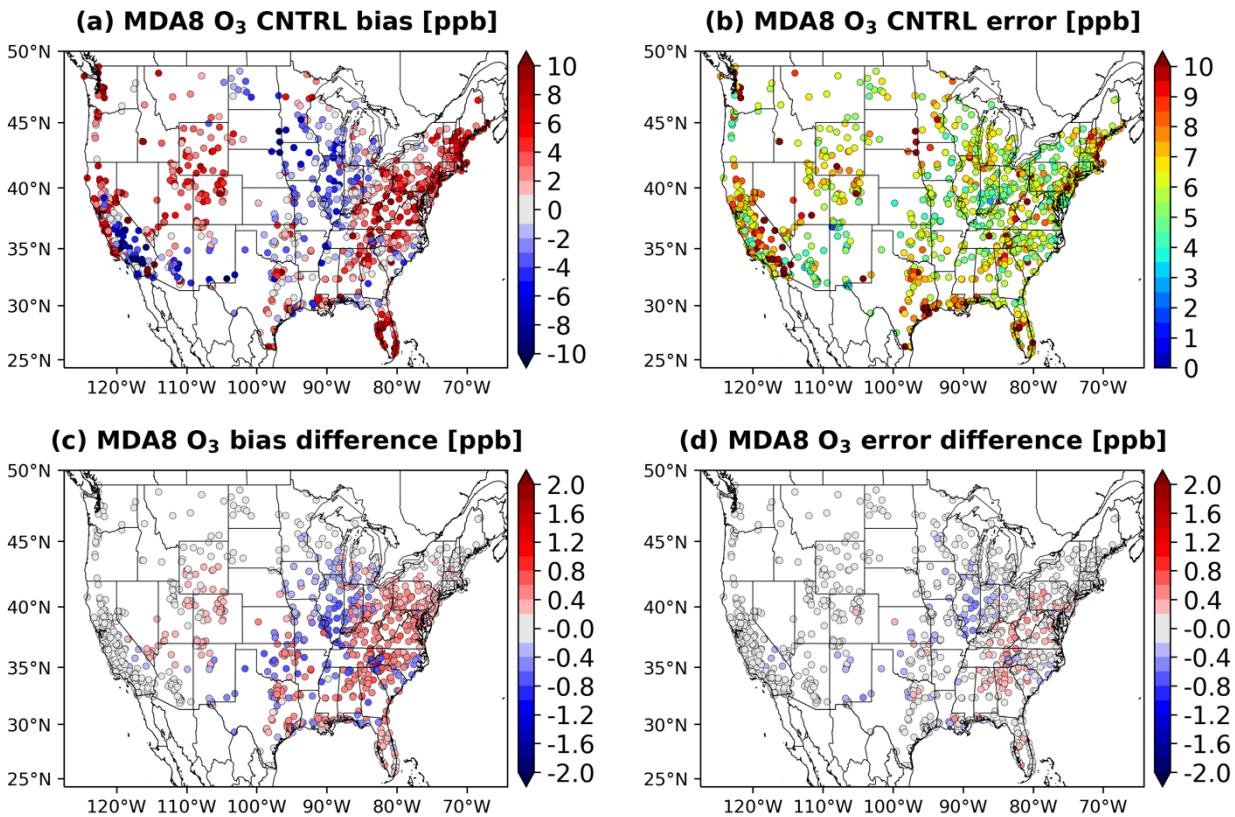

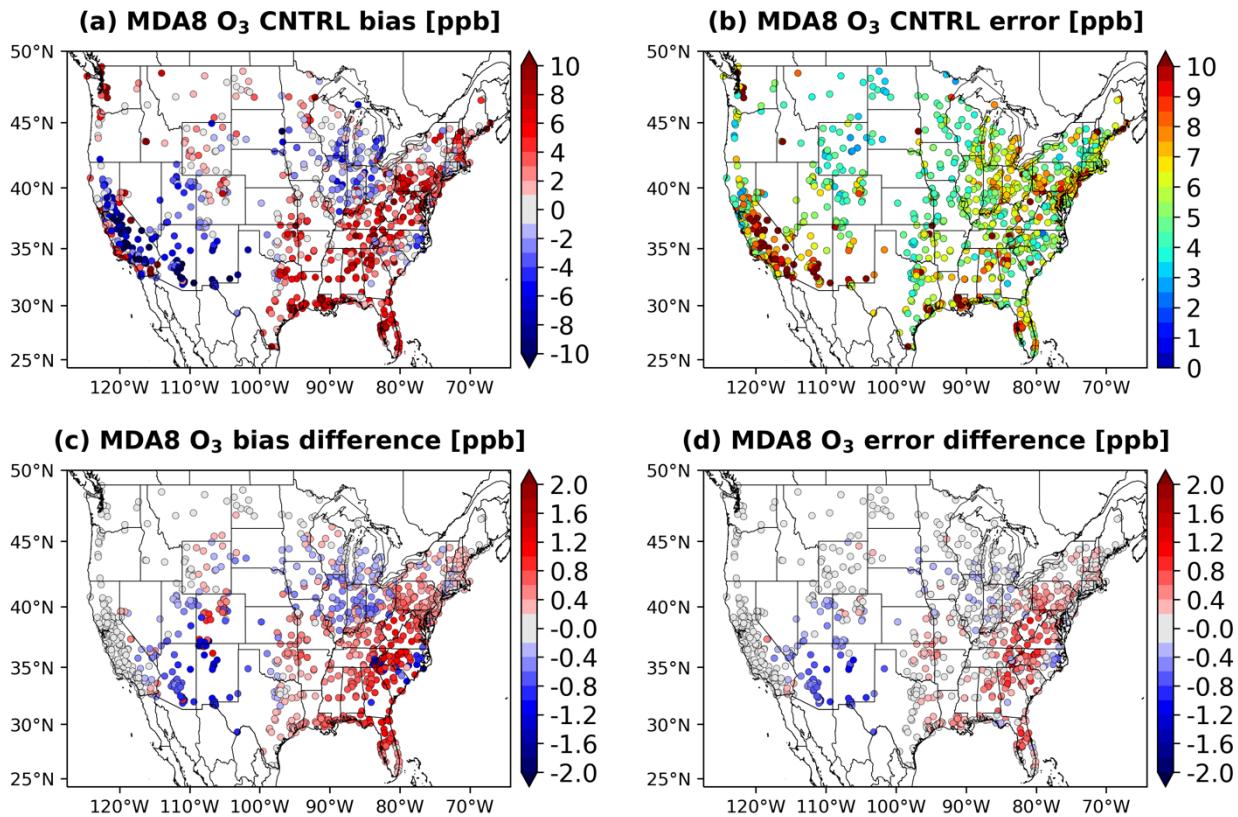

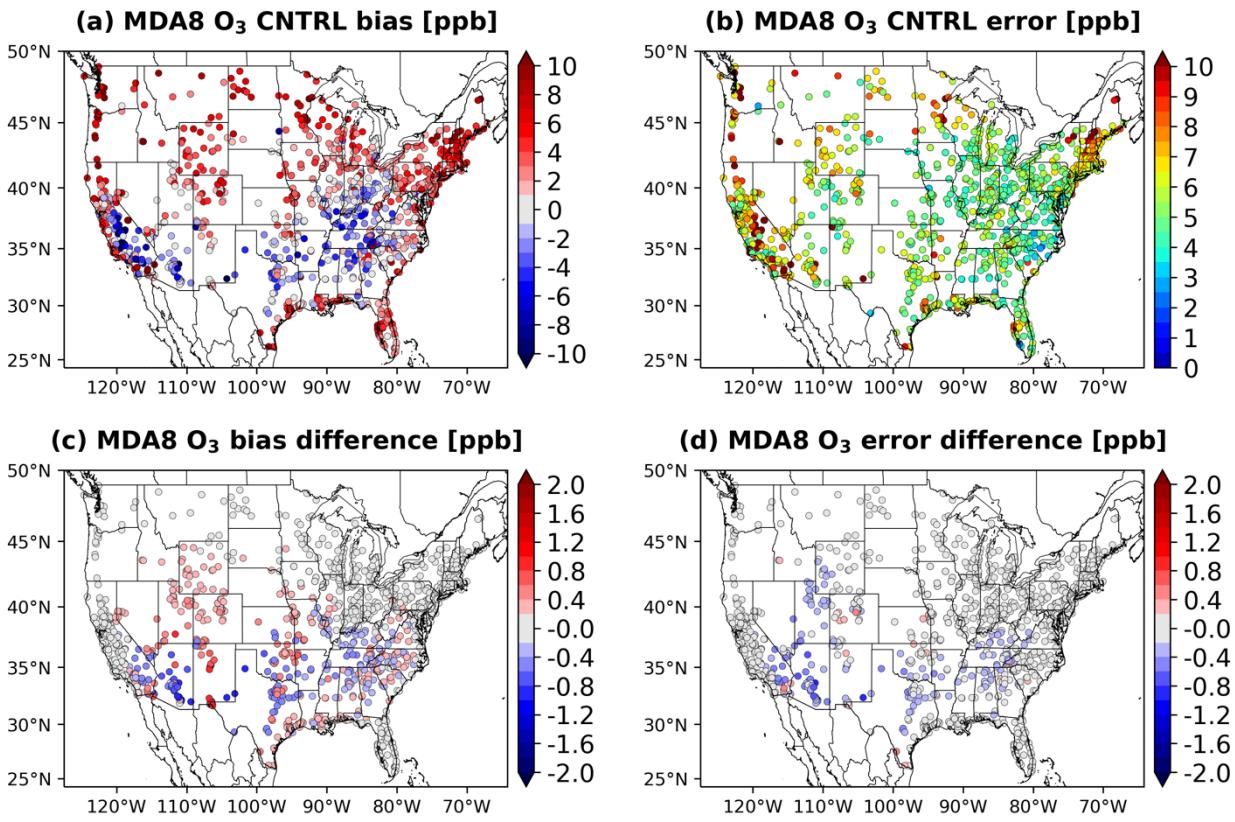

Figure S1: Spatial distribution of ground-level MDA8 ozone statistics for June 2019. (a) Mean bias of the CNTRL; (b) mean error of the CNTRL; (c) absolute mean bias difference between the LGTNO and the CNTRL; (d) mean error difference between the LGTNO and the CNTRL. In (c) and (d), negative and positive values represent improved and degraded statistics when including the NO_x emission, respectively.

35 Figure S2: Spatial distribution of ground-level MDA8 ozone statistics for July 2019.
