All my comments to the previous version of the manuscript by Glatthor et al. have been sufficiently addressed in the author response and in the revised version of the paper. The paper may be published after correction of a few typos:

1. p. 18, l. 7:
   "ist" → "is"

2. p. 18, l. 31–32:
   "(Plieninger et al., 2016), their Fig. 13)" → "(Plieninger et al., 2016, their Fig. 13)"
