

To the editor:

Thank you for your close review of “An assessment of ocean alkalinity enhancement using aqueous hydroxides: kinetics, efficiency, and precipitation thresholds.” We have made minor requested edits including adding subscripts to CO₂ and italicizing *p*CO₂ in the introduction. We added a space at line 398, and replaced ‘decomposition of biology...bleaching step’ with ‘decomposition of organic material’ in lines 416 and 472.

On behalf of all the co-authors,

Sincerely,

Dr. Mallory Ringham

Adjunct, Stony Brook University

Lead Oceanographer, Ebb Carbon, Inc.
