

Comment(s):

Dear authors,

Thank you for submitting your manuscript to NHESS. Editing the manuscript in response to the comments made by reviewers 1 and 2 has improved its quality considerably. Based on your responses to the reviewers and the changes made to the manuscript, I have decided that the manuscript can be considered for publication in NHESS after minor revisions. Before the manuscript can get published, please make sure that you also include the limitations of your study in the discussion (e.g. limitations of the sampling strategy, external validity of the results etc.). The manuscript would also benefit from a careful check for spelling and grammar including re-phrasing awkward sentences such as the first sentence: 'After a flood, we would probably reflect on the moment when we woke up on the couch because it was floating through the room.'

Best wishes,
Viktor Roezer

Response:

Dear Mr. Roezer,

We thank you very much for your suggestions! We revised sentences which might be of awkward structure and added a section on limitations (4.4) to the discussion as requested.

Please, let us know if you need anything else from us!

All the best,
Joy Ommer
