Dear editors,

Thanks for accepting our paper in SOIL. We have made the edit suggested by reviewer 2 in lines 335-336. Next to that, we also added some missing DOIs to the references.

The last thing we need to do is to upload the accompanying model code to ZENODO and reference it in the manuscript. For this, I would like to know the DOI of the paper, so that I can refer to it in the model code. Could you let me know when the DOI will be available?

With best regards,

Marijn van der Meij
