76 **Tables**

77 **Table S1.** CH₄ emission fluxes of experimental emission sources in summer measurements. Serial
 78 number 1-12 corresponds to the types of point sources in Figure 3 (a) and 4(a) in the text, and serial
 79 number 13 is the line source.

Emission Sources	Emission Fluxes (t a ⁻¹)		
	0601	0629	0711
1-Aeration Tank ③	66.21	62.05	50.46
2-Primary Clarifier ③	17.93	16.65	17.09
3-Screen ①	39.03	160.19	26.73
4-Primary Clarifier ④	26.03	25.27	25.05
5-Aeration Tank ④	31.37	69.68	184.08
6- Primary Clarifier ⑤	28.16	12.31	12.61
7-Aeration Tank ②	37.64	16.69	17.17
8-Aeration Tank ①	26.76	25.40	26.83
9-Aeration Tank⑤	39.70	32.29	18.16
10-Secondary Clarifier ①	13.63	11.53	14.06
11-Secondary Clarifier ②	6.41	10.81	10.00
12- Sludge Treatment	17.16	16.00	17.41
13-Screen①-Primary Clarifier①	192.47	198.31	190.66
Total	542.50	657.18	610.31
