COVER LETTER: egusphere-2024-2734 – minor corrections

Dear Professor Di Muro,

Thank you for accepting our manuscript entitled “Hydroxyl in eclogitic garnet, orthopyroxene and oriented inclusion-bearing clinopyroxene, W Norway” for publication in *Solid Earth*.

As you requested, we have checked the use of the molecular weight for water in equation 1. In our opinion, this equation is correct. It refers to the rounded molecular weight of H₂O, which is multiplied by 0.1 to obtain the result in weight percent.

We have corrected the typo you found and also added the letter “S” to the numbering of the tables and figures in the supplementary information to match the style of the journal.

Best regards,

Dr. Dirk Spengler
