Author Response to Technical Corrections

We sincerely thank the executive editor, Dr. Jeanette Whitaker, and the topical editor, Dr. Mart Ros, for their positive evaluation and recommendation to publish our manuscript. We are grateful for the constructive feedback and support throughout the review process.

In response to the final technical corrections:

- Line 77: “depend” has been corrected to “depends.”
- Line 89: The word “and” after “hypothesis ii.” has been removed.
- Line 107: A space has been inserted between “N” and “content.”
- Line 156: The comma after “Flessa et al.” has been removed.
- Table 4 and Table 5: Units have been placed in square brackets for consistency with other tables.

We believe these final edits address all outstanding issues, and we thank you again for your consideration and support of our work.

On behalf of all co-authors,
Victoria Nasser
