- *Public justification (visible to the public if the article is accepted and published):*  
*With the next revision, please remove supplement's materials from your \*.pdf manuscript (pages 30-33), since the supplement is already presented itself in the system.*

Dear Editors:

We sincerely appreciate your editorial guidance and the opportunity to revise our manuscript. In response to your specific request regarding supplemental materials:

We have fully removed the supplementary content (original pages 30-33) from the main manuscript PDF file, as instructed. The supplemental materials remain exclusively in their designated file within the submission system, per the journal's requirements.

Thank you for your clear instructions and diligent review. Please let us know if any additional adjustments are needed to comply with the journal's formatting guidelines.

Yours sincerely,

Zihan Xia and co-authors
