

Dear Editor,

Thanks for your final correction.

Toshi

Public justification (visible to the public if the article is accepted and published):

The authors have thoroughly addressed all comments raised by two reviewers, and I therefore recommend its publication after technical corrections:

line 569: "wet-case thermals around 9km (Fig. 7b)": Fig 7b --> Fig. 8b?

Corrected.

line 674, entrainment: should this be "entrainment"?

Corrected.
