RE: Files for journal article production of manuscript egusphere-2024-3110

Dear Dr. Maher,

We thank you very much for your positive evaluation and the careful checking of our manuscript. We are herewith uploading our files for article production. The manuscript is the same as the accepted version, except that in the acknowledgments we have replaced the placeholders X and Y for the IPRC and SOEST contributions, respectively, with actual numbers.

Best regards,

Ingo Richter
