

Dear Editor,

Many thanks for your suggestions. The title of the manuscript has been changed with “Significant influence of oxygenated volatile organic compounds on atmospheric chemistry: A case study in a typical industrial city in China”. In addition, the ppb unit used in the previous manuscript has been replaced by  $10^{-9}$  in the revised manuscript.

Once again, I would like to extend my heartfelt thanks to the you. Your meticulous work and valuable suggestions have significantly enhanced the quality of this piece. I truly appreciate your professionalism and dedication.

Best regards,

Kun
