

Remarks

Please ensure that the colour schemes used in your maps and charts allow readers with colour vision deficiencies to correctly interpret your findings. Please check your figures using the Coblis – Color Blindness Simulator (<https://www.color-blindness.com/coblis-color-blindness-simulator/>) and revise the colour schemes accordingly with the next file upload request. -> Fig. C2

Author's Response

Thank you for your suggestion regarding the color scheme accessibility in Figure C2. As advised, we have re-evaluated the figure using the Coblis – Color Blindness Simulator and identified potential issues in the red-blind and green-blind views. The figure has now been revised by adopting a colorblind-safe palette and adjusting transparency for overlapping areas.

Changes in Manuscript

The revised Figure C2 is included in the updated manuscript.
