Author's response

Dear Editor,

We are pleased to hear that our manuscript entitled "*Climate-driven biogenic emissions alleviate the impact of man-made emission reduction on O3 control in Pearl River Delta region, southern China*" is accepted for publication in **ACP**.

We hereby submit the final version of the manuscript after revising Figure 2 and addressing formatting issues.

Thank you again for your time in editing our paper. Please feel free to contact me for any questions related to this manuscript.

Yours sincerely,

Wang Nan on behave of co-authors
