

Response to the Editor:

We would like to express our sincere thanks for your thoughtful feedback and helpful suggestions.

We appreciate your note regarding the length of the abstract. In response, we have revised and significantly shortened it in the new version of the manuscript to better align with journal expectations.

We also took the opportunity to make a minor revision to the Conclusions section, aiming to improve its structure and enhance readability for the reader, as per your valuable recommendation.

Thank you once again for your guidance and for considering our manuscript for publication.
