

1 **Title: Spatiotemporal variation of growth-stage specific concurrent climate**
2 **extremes and their yield impacts for rice in southern China**

3 **15 Sep 2025**

4 **Editor decision: Publish subject to minor revisions (review by editor)**

5 **by Gabriele Messori**

6 I am pleased to accept your manuscript for publication in Earth System Dynamics
7 subject to a final edit. Please update the links that you provide in the data availability
8 section to ensure that they do not point to a home page but rather to the actual data
9 download page. If this exists in English, then please link to the English version and not
10 to the Chinese-language one.

11 **RE:** Thank you. We have updated the links provided in the Data Availability section to ensure
12 that they now point directly to the actual data download pages (Lines 530-536 in the clean
13 version). Where available, we have provided the English versions of the links. For dataset that
14 is not accessible through a direct download page, we have removed the corresponding
15 statements from the availability section.
