

Review of “Hysteresis of phytoplankton communities over Subpolar North Atlantic to CO2 forcing” by Lee et al.

'Comment on egusphere-2025-1474' | Additional private note (visible to authors and reviewers only):

Dear Authors,

Thank you for the revised manuscript which addresses the additional issues raised by reviewers and editor. There are a few minor issues of grammar and typos still remaining (some examples below). Please proof-read and check the manuscript in detail before publication.

Response: We have thoroughly proofread the entire manuscript to carefully check and correct remaining typographical errors, spacing inconsistencies, and grammatical mistakes. In addition, we have replaced the authors' names with their initials in the “Author contributions” section.

Line 125: Drop 'as same'

Response: Corrected.

Line 326: should be 'cycles'

Response: Corrected.
