

Review Report – 27/10/2025

Technical Note: GRACE-compatible filtering of water storage data sets via spatial autocorrelation analysis

Ehsan Sharifi, Julian Haas, Eva Börgens, Henryk Dobslaw and Andreas Güntner

This paper is accepted for Publication:

Rating at 1 to 4 scale, 1 means excellent and 4 means poor score:

----- Scientific significance ----- SCORE: 2 (Good)

----- Scientific quality----- SCORE: 2 (Good)

----- Presentation quality----- SCORE: 2 (Good)

----- Overall Rating ----- SCORE: 2 (Good)

The authors have carefully and comprehensively addressed all the comments raised during the review process. The manuscript has been significantly improved and now meets the standards for publication. I recommend the paper for acceptance. Congratulations to all the authors on their excellent work.
