
Dear Francisco,

Thank you for your tedious handling of our manuscript and for letting us know about your favourable decision along with the referee reports. We are glad that everybody finds the content appropriate and worth publishing by now.

We have decided to comply the length constraints by moving two sections to appendices. Besides giving a short summary for them in the main text, we have kept their content intact except for their first and last paragraphs where relevant. These sections are rather standalone, and the details are sufficient to read by the interested readers only.

Please find the changes in the marked-up version. We hope that you will find this solution satisfactory, and thank you once more for your work and patience; we are grateful to the referees for the same.

Best regards,
Gabor
