

Changes for resubmission to production (only in Supplementary Material, not in actual Manuscript):

I realized that I had forgotten to add 'Austria' to our affiliations, now amended.

Figure S1 was updated, as during the very first revision when I changed projection as recommended I had missed to include the margins. They are now placed in again.

Figure S11 was updated to remove the (Citterio & Ahlstrøm, 2013) reference considering the changes from the review process.

Figure S13 had a duplicated caption text from Figure S12, which is now amended.

Figure S14 missed the margin (red, blue), now added.
