Re: Manuscript egusphere-2025-3166

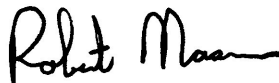

Dear Steve,

Thank you for accepting our paper, and for passing on the final corrections. In response, we have:

1. Corrected the unit errors in the caption for Figure 1;
2. Changed the title of Section 3.4.4 to "Wave flooding-floe fragmentation feedback";
3. Shortened the Section 5.7 header to "The Arctic";
4. Included the 3 additional tables as an Appendix, naming them Table A1, A2 and A3, as suggested;
5. Added an acknowledgement to Dr Clare Eayrs; and
6. Corrected a few small remaining grammatical errors.

Please do not hesitate to contact me should you require any additional input.

Thank you and very best wishes,
