

CMIP7 DATA REQUEST: ATMOSPHERE PRIORITIES AND OPPORTUNITIES

Response to reviewers

We were requested to update the 'in preparation' citation, or remove it. The relevant paper has now been submitted so we have updated the citation (L1005–1010 in the tracked changes file). A DOI will be assigned to the submission very soon, as we can fill that in during the typesetting stage.

In addition, with the time delay between the last submission and now, we have released a new minor update to the Data Request. We have updated the paper to reflect this. This has led to minor changes in the Table B1 in Appendix B (L702 in the tracked changes file) and the bibliography (L847).
