

All changes indicated by the editor have been done, i.e., the three mentioned sentences (ll. 534-538) have been clarified or changed according to the editor's suggestions.

The supplement figures, tables, and sections are now numbered as S1, S2, and so on, instead of without the preceding S, according to the GMD regulations. Also, Figs. 4 and 5 have been recreated to compile all panels in one file.
