Some minor changes

1. Fig. 1: The images are not the same size and are not aligned. Please correct.

Thank you for this comment. Figure 1 has been reformatted to ensure consistent panel sizing across all subfigures, with all panels properly aligned, shown in figure 1.

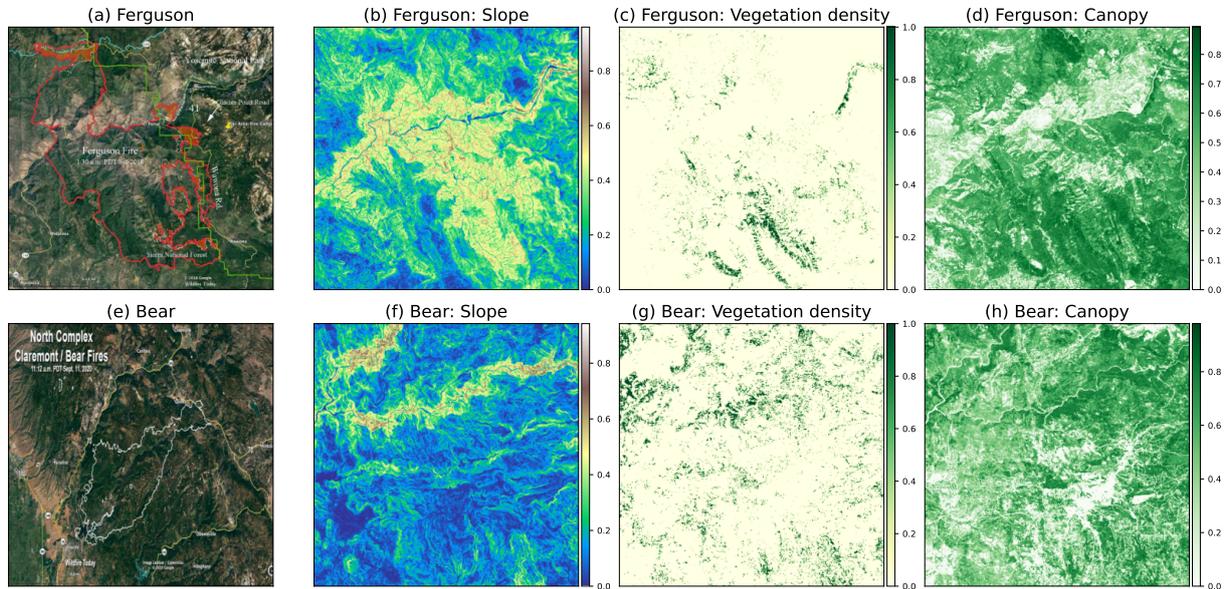

Figure 1: Updated figure 1.

2. Fig. 1: In the caption, it is better to put the letter beside the map that they are representing.

Thank you for this suggestion. The panel labels have been moved to appear directly above the corresponding maps, as shown in figure 1.

3. For all the figures, you should check the captions and make them more understandable.

Thank you for this helpful suggestion. We have carefully reviewed and revised all figure captions throughout the manuscript to improve clarity, consistency, and completeness. In particular, we have clarified the meaning of symbols, state definitions, colour codes, and evaluation metrics where necessary to ensure that each figure is self-contained and easier to interpret.
