The appendix of the original preprint contained a typo in Table A1. The hydraulic conductivity value  $K_{xy}$  for the pre-Rupelian Tertiary unit was incorrectly listed as  $1.2 \times 10^{-4} \text{ m s}^{-1}$ . The correct value is  $1.2 \times 10^{-7} \text{ m s}^{-1}$ . This correct value was consistently used in all groundwater simulations. All results presented in the manuscript are consistent with this value, and the published model is also correct <https://doi.org/10.5880/GFZ.CUEG.2025.001>. The typo occurred only in the tabulated value in the appendix, and hence does not affect any results or conclusions of the study.
