

Dear Dr. Farinotti,

Thank you very much for your message and for your thoughtful handling of the review process.

I am pleased to let you know that we have now implemented the full set of revisions. We have carefully addressed all comments raised by both referees and the revised manuscript has now been submitted.

Thank you again for your guidance throughout this process. We very much appreciate the constructive nature of the review and look forward to the next stage.

Best wishes,

Felipe Napoleoni
