

Dear Editor,

Thank you for accepting our manuscript for final publication in NHESS.

In the latest version of the manuscript uploaded to “egusphere-2025-5347“, we have included a dedicated “Data availability” section.

In addition, with this revision, we have assigned separate numbering to tables and figures in the appendices (for example, tables in Appendix C are numbered Table C1, Table C2 and Table C3, and figures Figure C1 and Figure C2).

Best regards,
Tazio Strozzi
