

Dear Editor

Thank you very much for your detailed and constructive feedback. We truly appreciate the time and care you have dedicated to reviewing our manuscript.

We have now carefully addressed all the points raised. The diagram was already present in the previous version; in addition, we have now included a screenshot from the game. The figures have been renumbered accordingly.

All issues concerning the references have been corrected: inconsistencies between in-text citations and the reference list have been resolved, missing references have been added where required, and formatting errors have been amended.

We have also implemented the requested revisions in the main text, including the correction to "Student's t-test," the grammatical amendment regarding Cronbach's alpha, and the restructuring of the background material so that it is appropriately placed within the Methods section.

Finally, Appendix 1 has now been included as Supplementary Material.

At this stage, everything should be correct and fully aligned with your recommendations.

Thank you again for your valuable guidance.

Kind regards,
the authors
