

Dear Editors,

Thank you for your comments. Please find below a summary of the changes made to the manuscript.

- The unintended page breaks on pages 5–7 have been resolved by removing an incorrect cross-reference that was causing the formatting issue, and the text has been merged accordingly.
- As suggested, the legend of Figure B2 (Appendix) has been updated to follow the same order as in the corresponding main figure.
- Five duplicate reference pairs have been corrected: Bevacqua et al. (2017), Di Martino et al. (2018), Hochrainer-Stigler et al. (2019), Kashinath et al. (2021), and Ling et al. (2024).
- The appendixes have been separated from the main paper and moved to supplementary materials.
- Finally, an acknowledgement for the EXPEDITE project has been added, as it supported the final stage of the reviewing process following the conclusion of the MYRIAD-EU project.

“The research was carried out within the frame of Myriad_EU project (<https://www.myriadproject.eu/>), which has received funding from the European Union’s Horizon 2020 research and innovation programme call H2020-LC-CLA-2018-2019-2020 under grant agreement number 101003276 and within the frame of EXPEDITE (<https://cordis.europa.eu/project/id/101067784>), which has received funding from the European Union’s (HORIZON TMA MSCA Postdoctoral Fellowships - European Fellowships) under grant agreement number 101067784.”

We hope the manuscript is now ready for final publication.

Best Regards,

Davide
