

Paper title: Identification of nighttime urban flood inundation extent using deep learning
Authors: Jiaquan Wan et al.

Dear Editor,

I am writing to express my sincere gratitude to you and the reviewers for accepting our manuscript titled “Identification of nighttime urban flood inundation extent using deep learning” (Manuscript ID: egusphere-2025-77) for publication in Natural Hazards and Earth System Sciences. We greatly appreciate the constructive comments and valuable feedback provided during the review process, which have significantly contributed to improving the quality of our work.

Thank you once again for your constructive suggestions.

Sincerely!

Xing Wang and Co-authors.
