

Dear Editor,

Thank you for your notification and for the final checks on our manuscript.

Regarding the editorial notifications made by Polina Shvedko:

- The two previously separate "Code and data availability" sections have now been merged into a single section under the headline "Code and data availability".
- The corresponding author is affiliated with the Commonwealth Scientific and Industrial Research Organisation (CSIRO). The ROR listing correctly identifies CSIRO, with Canberra listed as the main office, while the corresponding author is based at the Clayton campus.

Kind regards,
Ashkan Shokri
