the 'information' and 'communication' fields. The 'information' field is defined as:

...the study of the processes of information production, distribution, access, use and evaluation, and the study of the social, cultural, economic and political contexts in which these processes take place. (p. 10)

The 'communication' field is defined as:

...the study of the processes of communication production, distribution, access, use and evaluation, and the study of the social, cultural, economic and political contexts in which these processes take place. (p. 10)

The 'information science' field is defined as:

...the study of the processes of information production, distribution, access, use and evaluation, and the study of the social, cultural, economic and political contexts in which these processes take place. (p. 10)

The 'information studies' field is defined as:

...the study of the processes of information production, distribution, access, use and evaluation, and the study of the social, cultural, economic and political contexts in which these processes take place. (p. 10)

The 'information research' field is defined as:

...the study of the processes of information production, distribution, access, use and evaluation, and the study of the social, cultural, economic and political contexts in which these processes take place. (p. 10)

The 'information practice' field is defined as:

...the study of the processes of information production, distribution, access, use and evaluation, and the study of the social, cultural, economic and political contexts in which these processes take place. (p. 10)

The 'information theory' field is defined as:

...the study of the processes of information production, distribution, access, use and evaluation, and the study of the social, cultural, economic and political contexts in which these processes take place. (p. 10)

The 'information technology' field is defined as:

...the study of the processes of information production, distribution, access, use and evaluation, and the study of the social, cultural, economic and political contexts in which these processes take place. (p. 10)

The 'information systems' field is defined as:

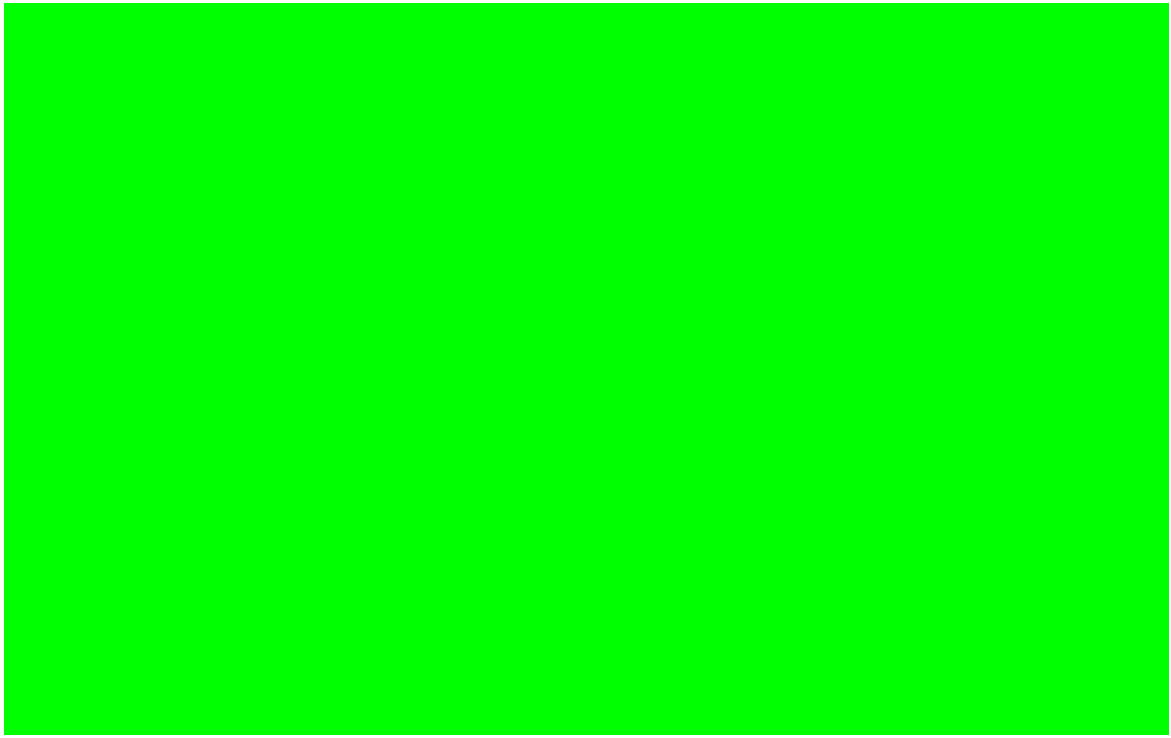

...the study of the processes of information production, distribution, access, use and evaluation, and the study of the social, cultural, economic and political contexts in which these processes take place. (p. 10)

The 'information management' field is defined as:

...the study of the processes of information production, distribution, access, use and evaluation, and the study of the social, cultural, economic and political contexts in which these processes take place. (p. 10)

The 'information science' field is defined as:

...the study of the processes of information production, distribution, access, use and evaluation, and the study of the social, cultural, economic and political contexts in which these processes take place. (p. 10)

the 1990s, the number of people in the UK who are aged 65 and over has increased by 1.5 million (1990–2000) and is projected to increase by a further 1.5 million by 2020 (Office for National Statistics, 2001). The number of people aged 65 and over is projected to increase by 2.5 million by 2020 in the USA (U.S. Census Bureau, 2000).

There is a growing awareness of the need to develop strategies to meet the needs of the ageing population. The World Health Organization (1999) has identified the need to develop strategies to meet the needs of the ageing population. The World Health Organization (1999) has identified the need to develop strategies to meet the needs of the ageing population.

If you do not report sufficiently on Climate Change, how do you think the communication of Climate Change should be improved?

1 introduced with real situations in the daily weather forecasts

1 Climate Change is always with us. We need to explain it better

1

5 If the TV and Radio will give us more time to talk about it

3 virtual e interactivo, videos.

4 to make it a matter of emergency, increased communication

3 Having climatologists readily available to discuss it...

4 If it were more direct involving people's daily lives

4 That's the million-dollar question! I think climate communication is the key

2 Educate people using facts.

1

3

1 Maybe seasonal report to put the weather of the last year in context

1 If the young are fought in schools at an early age and then it's repeated

1

3 I don't know

2

2

2

1

1 For Ireland it is difficult as we have such natural variability

2 Wouldn't know, not my expertise.

1

3

1 Starting from the class room lower primary.

1

2 Related with daily life

1

2 Científicos Meteorólogos en las decisiones de gobierno

3 I am a meteorologist, not a climate change specialist

1

4 By talking about it directly and through education.

1

1

3

1

1 The use of mass media

3 Simple visual examples in colloquial language.

4

4 It should be included in mainstream social media

2

2

3 Having it be more widespread

1

1 Be more close to the public day to day experience. E

1 More agenda.

3

3 Serious involvement of Government and stakeholders

2 mientras mas sencillos sean los mensajes, llegaran

1 Creating Awareness campaign

3 by storytelling, images of change, explanation of eve

1 Through governmental participation and involvement

1 Through public awareness

3 presenters given enough time and more segments to

2 I think there are too many news about it and people

3 Should be supported by management and politicians

2 easy to understand graphics, with only little need for

3 We must make co-production.

2 Talk about many familiar topics such as changes in

3 By making use of visuals (videos, testimonies, etc)

1 If i could know my audience. Because it is rather diffi

1

1 If more media would cover it more often.

1 Explaining consequences of a warmer world on a loc

2 Being more positive and no doomsday

1 By focusing on specific impacts that are important to

5 With more resources and time to expose it in the me

1

2 If it was not a politicized subject

2 you have always to tell the truth, even if some get up

1

1 You have to show solutions too, the better way forward

1 More tv time

1 to put it in the context of the daily weather

3 By showing direct examples of how climate change i

1 It would be more effective to have more support to g

1

2 We need to make sure people know how climate change is happening.  
 2 Stick to the science and solutions! It is not a political debate.  
 2 Have more organizations providing ready made material.  
 1 Simplified for audiences understanding  
 1 propose solutions, not just problems  
 1 The challenge might be, how to explain the alarming news.  
 1 If Twitter didn't exist.  
 5 By talking more about solutions  
 3 Relate it to recent extreme events  
 1 More visual graphics  
 2 It should be focused with specific arguments to the science.  
 1 Speaking about local impacts  
 3 between forecasters around world  
 2 If it connects with the audience, with what they are already aware of.  
 4 Greater coverage in all media. Less debate.  
 1  
 1  
 3 Show (even small) solutions and good examples. Give them hope.  
 2 It should have more time and weight in the news  
 1 Implicando a la audiencia. Que sientan que pueden hacer algo.  
 1  
 1 Clear and verified information. Without moral judgement.  
 3 Make it easier to understand for people. Break down the science.  
 1  
 3 By using comparisons of the facts that audience gets from the news.  
 1 Communicating close examples and daily facts  
 4  
 3 Talking about solutions, new technologies and encouraging people to act.  
 2 We have to provide all information in a simple & easy way.  
 2 With visual reports & facts  
 1 various messages/narratives for various audiences, depending on the audience.  
 2  
 1 Simply but scientific  
 3 with examples from life  
 1  
 1 I try to do it when there is something new or some of the facts are new.  
 3 Yes. We should change the "burden of proof". I mean, we should prove that it's not happening.  
 3 Yes. We should change the "burden of proof". I mean, we should prove that it's not happening.  
 1 Increase the involvement of climate scientists, increase the number of scientists.  
 1 CON MÁS TIEMPO EN LOS PROGRAMAS DE TV  
 2 If we use simple language. We must know how to translate the science.  
 2 If it was made simpler from scientific reports  
 1  
 2 before and after images work best to show climate change.  
 5 las políticas gubernamentales no dan prioridad a esta información.  
 1 There should be more present in the tv programme!  
 1 Be real and show/explain the facts.  
 2 By using the current events to explain climate change.

2 Easy to understand/ creative / or simplebut effective

1

1 short video stories: Show Me Change in my life and

3 Use simple language, understandable to all audienc

2

1

1 More easy to understand

1 Specific and local information instead of general

1 Con información sobre como afecta a mi país. Toda
