Dear Editor,

Please find our most recent version of the manuscript (egusphere-2025-5744-manuscript-version5) in both pdf and docx form. Furthermore, we have updated the references to the EGU standards and labelled the appendices as per the comments.

One additional comment/request:

The second author's name was incorrectly entered. It should read Paul Gasper. It has been corrected in the .docx and in the pdf.

Thank you for your assistance and time throughout this process.

Kind regards,

Matthew Tippett-Vannini, on behalf of all co-authors
