

Dear Editor,

Thank you for carefully checking our manuscript and providing clear instructions. We have revised the manuscript accordingly. Our point-by-point responses are provided below.

Comment 1:

Please move Appendix A to after the Conclusion but before the end matter and references.

Response:

Thank you for this comment. Appendix A has been moved to immediately after Section 5, Conclusion, and before the end-matter sections and References.

Comment 2:

Revisions are still required in order for the reference list to adhere to our standards.

Response:

The entire reference list has been carefully checked and revised in accordance with the Copernicus reference guidelines. The author lists, punctuation, article titles, journal names, volume numbers, page ranges or article numbers, DOI information, publication years, and alphabetical ordering have been corrected and standardized.

Comment 3:

I suggest rephrasing in-text references to indicate the specific table in the appendix, not simply Appendix A1.

Response:

The relevant in-text references have been revised to identify the specific appendix tables explicitly. The manuscript now refers to Table A1, Table A2, Table A3, and Table A4, as appropriate, instead of referring generally to Appendix A or Appendix A1.

We appreciate the careful evaluation of our manuscript. All requested revisions have now been completed.

Sincerely,

Rong Liu
