

Comments to the author:

Thank you for choosing Geoscience Communication for your research and for engaging so thoroughly in the peer review process. I think that this manuscript will be suitable for publication in GC subject to the condition that a suitable ethics statement needs to be added to this manuscript; i.e. this is obligatory for all GC papers. I've put this as 'minor corrections' so that the authors can liaise with the handling editor if needed.

Author response:

An ethical statement has been added to the manuscript
