

01 June 2026

Dear Editorial Office,

according to your email from 21 May, we have revised the reference list and adapted the citation style to comply with the journal's formatting requirements.

In addition, we corrected a minor spelling error in line 149 of the manuscript, changing "glas vessel" to "glass vessel".

We hope that these changes address the remaining formatting issues. Please let us know if any further adjustments are required.

Kind regards,

Elisabeth Eckenberger
