

Dear Editor,

Thank you for accepting our article for publication.

To address any concerns regarding the source of the orthophotomap in Figure 8, as well as all other figures containing satellite images or orthophotomaps, the figure captions have been revised to eliminate any ambiguity. Accordingly, two references have been added to the bibliography.

We have also taken the liberty of changing the name of the "Supplement material" section to "Appendices," in accordance with the description provided in the guidelines for authors.

*On behalf of myself and the co-authors,
Zofia Owczarek*
