

Author's Response

1. Please correct the inaccurate use of 'range' at line 16 in the abstract as was already done in the main text. Sorry, I missed that instance in the earlier comments.

We have altered the text in the abstract as requested. Thanks for pointing this out.

2. On a final reading I noticed a number of geographic locations mentioned in the text, mainly in section 4.1, that did not appear on any of the maps (Opinan, Beinn Bhreac, Gaineamhach). Please carefully check the manuscript and figures to make sure that all locations mentioned in the text are labeled in the maps, and adjust the figures as needed.

And thank you for catching this. All place names are now in Figure 2, with acronyms defined in the caption.
