

Dear Mario,

Thank you very much for your careful file check and for pointing out these formatting issues. We greatly appreciate your attention to detail and your assistance in ensuring that our manuscript complies with the journal's submission requirements.

We have carefully addressed both points. Page numbers have been added to the manuscript PDF while retaining the line numbers, and the corresponding-author information has been revised to include the full names and email addresses of both Pei Li and Yong Xue below the list of affiliations.

Please find attached the corrected manuscript PDF and the author's tracked-changes PDF for your consideration.

Thank you again for your kind assistance and support.

Kind regards,

Yong Xue

Comment 1

Your pdf file does not include page numbers. Can you please add page numbers in addition to the line numbers to the pdf file?

Response:

Thank you for pointing this out. We have added page numbers to the revised PDF while retaining the line numbers, as requested.

Comment 2

You only listed one corresponding author with an asterisk icon (*). Please note that the corresponding author(s) must be listed with full name(s) and email addresses below the list of affiliations. Please also note that you selected two corresponding authors (Pei Li and Yong Xue) in the MS records. If both should remain as corresponding author, please add the full names and email addresses after "Corresponding author:" below the list of affiliations.

Response:

Thank you for pointing this out. Both Pei Li and Yong Xue remain as corresponding authors, consistent with the information in the MS records. We have revised the manuscript to provide their full names and email addresses after "Correspondence:" below the list of affiliations.
