

Final additions to “Long-term Climatology of Vertical Profiles of Polarimetric Variables and Ice-microphysical Retrievals at X-band. Part I: Radar Calibration” by Tobias Scharbach, Velibor Pejčic and Silke Trömel, egusphere-2026-493.

- We have added Velibor Pejčic as an additional co-author and have therefore also updated the “Author Contributions,” “Financial Support,” and “Acknowledgments” sections.
