

Isotopic fractionation during ice growth by riming and its effect on the d-excess of precipitation

Pradeep K. Aggarwal, Courtney Schumacher, Frederick J. Longstaffe³ Aaron Funk, Matthew D. Shupe

Changes made to the final version of the manuscript

1. All figures have been replaced to comply with ACP requirements
2. The text has been carefully reviewed by all the co-authors for accuracy and readability, consistency and typographical errors. Minor changes were made as a result.
