

Dear Editor,

We noted a typo in the abstract that we would like to correct.

We would like to remove the minus sign in front of the two figures P1 L23-24 as the expression that precedes is mass loss and should not be negative.

The correct text should then be: “the AP Ice Sheet lost **$28 \pm 6 \text{ Gt a}^{-1}$** while its peripheral glaciers lost **$14 \pm 3 \text{ Gt a}^{-1}$** ”.

Best regards,

Maud Bernat on behalf of the Co authors
