

Response to the editor comment

- 1) We added the DOI to the manuscript Bianco et al. (2026), which has been accepted for publication in the journal Weather and Forecasting in June 2026, and removed the reference to Kirincich et al. (2026) which is still under review at the journal Bulletin of the American Meteorological Society.
- 2) We updated the code in the Zenodo archive and updated the DOI in the manuscript to point to the latest version (version 3) in Zenodo.
